

## E-Portfolio Final Project

*This project is a web page that incorporates links to all the pages you have done in this class as well as highlights from other classes. You need to have a home page + 3 other pages that talk about you. You will need to be able to show that you can incorporate everything that you have learned this semester.*

- *HTML coding (insert coding to include a scrolling marquee, an embedded calendar)*
- *Favicon*
- *Photoshop buttons, graphics, pictures*
- *As well as uploading it to an ftp website*

*Reminder: This is a PROFESSIONAL website. You need to make sure that text can be easily read and that it is set up in a professional manner.*

*You need to design a website using the rubric below to assist you:*
